

Building a community of concern for our children...

presents its second ONLINE INTERNSHIP

14th June to 16th July, 2021
75 hours
15 modules

INTRODUCTION

Welcome to our online internship! We have a range of engaging and informative modules ready for you which will be facilitated by our experienced faculty. This internship will entail self -development & reflection, access to several readings and resources, application-based learning and informative sessions with our trained faculty after each session.

WHO IS THIS FOR?

If you are an undergraduate or postgraduate student in any discipline with an interest in psychology, then this internship is for you! These modules have been carefully curated to cater to students and enthusiasts from any educational background!

CERTIFICATION

A certificate of course completion will be provided at the end of the internship (upon meeting attendance and submission requirements).

STRUCTURE OF THE INTERNSHIP

Designed keeping in mind daily engagement through readings and resources, the 75-hour internship has been divided between contact and non-contact hours. Contact hours consist of engaging and informative modules taught by our trained faculty followed by live QnA sessions.

Non-contact hours include engaging with resources and readings keeping in mind application-based learning. We've included a variety of different activities including group discussions. journal prompts, case histories, movie analysis, experiential art-based activities and much more! These activities along with detailed instructions will be provided by our team.
